

CONFINED SPACE ENTRY PERMIT

Permit No: CSP-2026-0015

Facility: Reference Spice Plant, Grinding Department

Date Issued: 2026-02-18

Valid From: 2026-02-18 10:00 To: 2026-02-18 13:00

Task Description: Internal cleaning of the UPZ Line feed hopper, ahead of the next production run.

Entry

Atmospheric Testing:

- Oxygen level at entry: 20.8% (acceptable)
- Dust concentration at entry: elevated, within limits but noted

Entrants: 2 (grinding department staff)

Attendant: T. Menon

Cross-reference check with active Hot Work Permits in adjacent bays: NOT PERFORMED at time of issuance. This permit (10:00-13:00) overlaps with Hot Work Permit HWP-2026-0027 (09:00-15:00, same department, welding on Salt Grinding Line motor mount) for the full duration of confined space entry.

Governing Standard: Factories Act 1948 Chapter IV, Plant Combustible Dust Safety Guideline
